

Welcome

Online Guide

This guide explains how to access documents on the accompanying CD. All documents are in Adobe Portable Document (PDF) format and can be viewed with Acrobat Reader.

The instructions presented in this guide are compatible with Control Center 2.0 and Acrobat Reader 4.0 with the 4.05 Search Plug-in.

Click the following links for more information.

Using the Online Guide

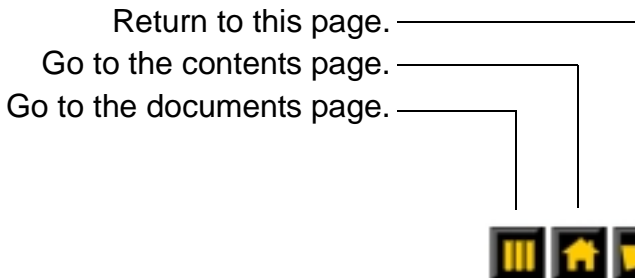

Online Guide

Use the following navigational aids to move through this guide. The four arrow buttons below are part of the Acrobat interface.

- Go to last page.
 - Go to next page.
 - Go to previous page.
 - Go to first page.
-
- » — Advance within a section.
 - — End of a section.

These three navigational aids appear at the bottom of every page.

Using the CD

The Docs directory on this CD contains user documents in the following folders:

- CCxx - contains documents for a specific Control Center release
- SMxx - contains documents for a specific StorHouse/SM release
- RMxx - contains documents for a specific StorHouse/RM release

From the Adobe Acrobat Reader, click Open on the File menu and navigate to the document you want to read.

Or, use Windows Explorer to locate the file on the CD. Then double-click the file to open it. ■

Getting Help

Control Center includes comprehensive help about the Control Center framework, the Control Center administration software, and any optional Control Center modules, such as StorHouse/Performance Monitor or CCAdmin, that you have installed.

To access help, click Help on the Control Center menu bar. Then choose “CC Contents and Index” and select the topics that you want.

You can access context sensitive help from any Control Center dialog box by clicking the ? in the upper right corner of the dialog box. Then click the dialog box topic that requires help, and explanatory text will pop up. ■

Viewing Documents

Online Guide

Click one of the following product releases to view related documents. For example, click Control Center 2.0 to view the Control Center documents for that release.

- Control Center Release 2
- StorHouse/SM Release 5.1
- StorHouse/SM Release 5.2
- StorHouse/RM Release 2.2a
- StorHouse/RM Release 2.3

To return to this guide from a document, click the first entry (called Online Guide) in the document's bookmark list.

If the bookmark list does not display, then select View Bookmarks on the Acrobat Reader Windows menu. ■

Control Center 2

- [StorHouse/RM Technical Update](#) ■

Creating Shortcuts

You can create a document shortcut in the selection bar at the left of the Control Center framework. A shortcut provides immediate access to the document from the Control Center screen.

To add a document shortcut to the Control Center selection bar:

1. On the Control Center File menu, click Configuration Wizard.
2. For shortcut type, check Online document, then click Next.
3. Type the full path to the document you want to add or browse to the document location.
4. Click Next. >>

Creating Shortcuts (cont.)

5. In the Shortcut name box, accept the default or type a new name for the document. This name will display beneath the document icon in the selection bar.
6. Click Finish.

When you click a document shortcut, Control Center launches the appropriate viewer for that document. You must have the appropriate viewer installed to read documents this way. ■

Searching Documents

You must have a version of Acrobat Reader with the Search Plug-in to search for keywords across all documents on the CD. The CD contains the software that you need.

The first time you use the search feature you must configure your system as follows.

To configure your system for searching:

1. On the Acrobat Reader Edit menu, point to Search, then click Query.
2. Click Indexes.
3. If checked, uncheck Acrobat 4.0 Online Guides.
4. Click Add.
5. Double-click the Docs folder on this CD. ▶▶

Searching Documents (cont.)

6. Select Master.pdx.
7. Click Open.
8. Click OK.

To search documents for keywords:

1. On the Acrobat Reader Edit menu, select Search, then Query.
2. Enter your search criteria.
3. Click Search.
4. Select a document from the results list and click View.

Repeat step 1 to return to the Results list, then choose Results instead of Query. ■

Copying the Docs Folder

Using Windows Explorer, you can copy the contents of the Docs folder to your local hard disk or to a network-accessible drive.

After you copy the files, update your existing Control Center shortcut to the new location of this Online Guide, or create a new shortcut that points to the disk-based version of the Online Guide and user documents.

To modify the existing Control Center shortcut:

1. Right click the shortcut in the selection bar.
2. Choose Properties from the shortcut menu.
3. On the Properties dialog box, make any changes, then click OK. ■
